SPANISH PEAKS — THE LAND OF HUAJATOLA

*Introducing*  
**Spanish Peaks**

LOOMIS 1947

A true self, chosen from a group of selected whites that have been under observation for several seasons.

**Spanish Peaks**

is WHITE — nothing else, just WHITE—as pure and unmarred as the great snow masses that cover the lofty peaks for which it is named. The throat — the beard — the style arms, all are WHITE, white as the gleaming wastelands that lie beyond the timber-line, where the winter storms are born.

Yes, SPANISH PEAKS is White—nothing else, just white—with large, broad petalled, beautifully finished flowers of pleasing form and excellent substance on tall, thirty-eight inch stalks.
